CONVERGENCE OF RESEARCH IN DIGITAL AGRICULTURE LEADING LABS

Digital agriculture stands for the digitalisation of agriculture. It has been the focus of a growing number of research and innovation projects over the last 10 years. In France, #DigitAg is the first structuring large research project 'about and for' digital agriculture. Other research projects & programmes have followed, at regional level, such as OccitANum (Occitanie Digital AgroEcology), at national level such as the 'Agroecology & Digital Tech' program and its flagship projects (CoEditAg, Wait4, PI@ntAgroEco, LINDDA), and at European level such as the CODECS and QUANTIFARM (tbc) projects. #DigitAg is also connected to other vibrant communities devoted to research in Digital Agriculture emerging worldwide, in Africa or South America.

The year 2026 will mark the end of several of these projects, eg #DigitAg, CODECS, QUANTIFARM but also the ramp-up of newly-developed projects on digital agriculture worldwide, especially in Africa - as part of the TSARA initiative - and South America, in relationship with CGIAR and with Brasilian ecosystem. This pivotal moment is the opportunity to organise an International Conference, in order to build convergences between continents, between disciplines, between pioneering and newcomers in digital agriculture research.

If you already have a Science Conf account: log in!
If you do not have a Science Conf account: you need to create one using the form opposite

1 Enter your email adresse

2 Login : you have to choose a login for the Scienceconf.org platform

3 Choose a password & re-type it

4 Enter your lastname & firstname

5 Choose the default language of the website : all the texts of the interface (home, menu, content) will be posted in the selected language

6 Prove that you're human by answering questions

7 Click on «Create account» : Within a few minutes, you will receive an email enabling you to activate your new account and log in to the interface by clicking on the link in the email.

CREATE ACCOUNT

Thank you for filling out the form below to create your account on the CCSD platforms : Sciencesconf.org HAL Episciences ⓘ

(* : Required fields)

1
Email address *
Enter your email address

2
Login *
Choose a user login for the Sciencesconf.org platform

3
Password *
Type a valid password (alpha numeric from 7 to 20 characters)

Re-type your password *
Please re-type your password

4
Lastname *

Firstname *

5
Default language of the website
All the texts of the interface (home, menu, content) will be posted in the selected language

Poster presentation

⑥ → Poster presentation
→ Oral presentation

Topic *
Select themes that may apply to the proposal. Please note that the organizers may re-allocate proposal. For multiple selections, hold down the Ctrl or cmd key when selecting items.

Methodological advances in digital sciences applied to agriculture
Knowledge engineering
Artificial Intelligence in agriculture
Low-cost digital technology

⑧   Next step

① Click on My submission

② Click on Submit an abstract

③ You must first fill in the «Metadata», this is the 1st step in submitting abstracts.

④ Enter the abstract title

⑤ Enter the text of the abstract (max 400 words)

⑥ Choose the type of document you are uploading. 2 choices only: poster or oral presentation

⑦ Select the Topic themes that may apply to the proposal. There are 11 themes to choose from, with the option to select 'other'. Please note that the organizers may re-allocate proposal. For multiple selections, hold down the Ctrl or cmd key when selecting items.

⑧ Click on Next Step

NEW SUBMISSION

1   1 Metadata   2 Author(s)   3 File(s)   4 Overview

You must add all authors individually. To add an author, first click on "Add an author" and fill in the form, secondly click on "Add an affiliation" and enter the details of the author's institution(s).

CALL FOR PAPERS INFORMATION

The CORDiALL conference
CONVERGENCE OF RESEARCH IN DIGITAL AGRICULTURE LEADING LABS
is planned April, 14-17, 2026,
in Agropolis International, Montpellier, France.

This conference aims to bring together the community of #DigitAg partner laboratories and, more broadly, of laboratories deeply involved in digital agriculture, in national or international projects, based on targeted invitations.

We have the pleasure to kindly invite you and members of your laboratory to send summaries of your work in the following themes :

- Methodological advances in digital sciences applied to agriculture,
- Knowledge engineering
- Artificial Intelligence in agriculture
- Low-cost digital technology
- On-farm experiments and digital tools
- Adoption, design, ergonomy
- Evaluation of the cost & benefits of digital technologies
- Building inclusive and transformative digital ecosystems
- Impacts of digital technology on agriculture
- Public Policies for responsible digital agriculture
- Experiences of interdisciplinarity / transdisciplinarity in research dedicated to digital agriculture

NB :
The first day of the conference, **Monday, April 13**, 2026, will be held in French as the **#DigitAg - OccitANum Meeting Day,** to present the advances made by these two transformative projects on digital agriculture.

As we are willing to strengthen collaborations with Southern countries, we expect to get papers from African and South American partners. Such papers will be specifically highlighted in the program.

Please note: you can only submit 2 types of abstract:

1/ An oral presentation (15 minutes maximum, including time for questions and answers)
2/ A poster (3 min flash presentation, no question)

Call for summaries opens August 26th and closes Octobre 14th, 2025

CO-ORGANIZED BY
